MAXLS

IBM Premier Business Partner

PROVEN **DATA MANAGEMENT TOOL** FOR IBM MAXIMO

MAXLS is the premier data management tool for end-users. It is a fully integrated and embedded spreadsheet UI. MAXLS makes data entering, editing, and loading easier and quicker than any other product in the marketplace. No need for custom software, pricey scripts, or buying features that are never used! With MAXLS, your entire organization can enjoy faster, easier, and better work management

MAXLS

IBM Premier Business Partner

MAXLS

Premier Data Management Add-On for IBM® Maximo®

Embedded spreadsheet UI in any application
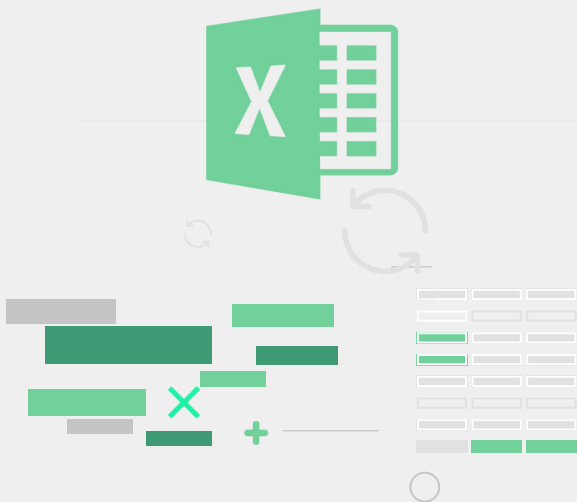

Directly edit multiple fields in just one tab

Enables use of Microsoft Excel with Maximo®
Maintains security and business rules

BUILT-IN ERROR CHECKING

MAXLS error checks data by catching any MBO, syntax, or security rules errors or invalidations. MAXLS pinpoints where the errors are, quickly allowing the IBM Maximo user to find and correct the data error directly within MAXLS

ERROR

LICENSING

MAXLS is offered as a perpetual license for your entire organization and for unlimited users. The license also includes free configuration, installation, training, support, and upgrades in Year 1. In Year 2, continued services cost 20% of original add-on price. Even if you choose not to continue support & upgrade services in Year 2, you continue to have the add-on under the perpetual license. 45-day money-back guarantee.

LEVERAGE MAXIMO WITH EXCEL
for everyday maximo users

Two powerful software systems: Maximo with Excel. IBM® Maximo® users can manage large amounts of data with a completely integrated and fully embedded functional tab within any Maximo application. Maximo users can work on their business data in Microsoft® Excel® and then use the copy & paste function for mass data uploading and importing Excel into Maximo. Modified data is clearly identified for quick and easy review. Data simulation, syntax checking, and business rules validation ensure data integrity and security. Using Maximo with Excel helps your Maximo users work more efficiently.

BUSINESSMISSION STATEMENT

MAXLS Data Management is the premier essential IBM Maximo add-on product for mass information load. It enables you to import, update, upload and direct edits of asset and MRO specifics. Think Maximo with Excel.
